Washington, D.C.—Today, Congressman Walz called on Republican Leader Eric Cantor to stop the political games and end his blockade to the STOCK Act. He released the following statement:

 “I applaud the United States Senate for doing the right thing and moving the STOCK Act forward,” said Walz. “It is now time for Republican Leader Cantor to do the right thing and end his blockade of the STOCK Act in the House. Members of Congress should have to play by the same rules as everyone else. The American people and a majority of the House want the STOCK Act passed, and passed today.”
